\$85,000 is the average annual income for established, full-time USANA Associates. \$23,300 is the average annual income for Associates who earn as little as one commission check a month. Total includes all earnings from the compensation plan, Leadership Bonus, and contests and incentives. Calculations based on earnings between February 2008 and January 2009. Figures should not be considered as guarantees or projections of actual earnings, which result only from consistent, successful sales efforts. To be considered in a rank's earnings, Associates must have earned checks at a median rank for at least 16 weeks. According to results from an in-house survey taken between 2004 and 2006, the primary reason 17% of USANA independent business owners join the company is to improve their financial future. 21% of that group earns a check at least once a month. Of those whose primary reason is to earn enough to replace a full-time income, 41% have been Associates for at least one year and 56% are full-time Gold Directors and above. The number of Gold Directors and above who have maxed at least 1 Business Center during the year equals less than 1% of all Associates. Those earning as little as one check a month equal approximately 3% of all Associates. The average annual income for all 158,934 USANA Associates, including those who are brand new or who are not actively building a business, is \$618.55, with nearly one in three earning a check. To date, USANA has more than 130 Million Dollar Club members.
